

LEVEL INDICATOR

CLC40

Product Line: **Conductive**

Liquids

Food product

Conductive level control for liquids. Versions with 2 or 3 stainless steel rods and with G 1" 1/2 process connection.

ADVANTAGES

- An **EASY TO INSTALL** instrument that does not require any maintenance or specific tool for its installation.
- Extremely **VERSATILE**, it can be installed on tanks, on walls or roofs of silos, in a vertical or horizontal position.
- **CUSTOMIZABLE** with different voltages.
- The instrument sensitivity is **ADAPTABLE** to the conductance of the liquid, and an intervention delay can be set when needed.
- Allows for the **INDEPENDENT** control of two levels.
